Meeting with Central Kansas Dentistry was a very positive experience. I was warmly greeted at the door and the friendliness continued throughout the day. Everyone was professional and helpful. All my questions were answered thoroughly. I was also treated to a nice lunch at Padens. The waitress there was also fantastic. Overall, it was worth my trip and I'm sure I will be very happy with future services.

This afternoon I had a very thorough and compassionate consultation of my dental needs and goals with Dr. Kurt Williams. Shaun, Kim, and all the other office staff were also exceptionally friendly, helpful, and efficient. I have every confidence in Dr. Williams' professional conclusions and guidance and am thankful for a plan moving forward. I walked in nervous and left encouraged and highly recommend Central Kansas Dentistry. I am so relieved to have had this consultation with Dr. Williams today.

Yesterday I got my new upper denture from Dr. Williams at Central Kansas Dentistry in Ellsworth. It's better than I ever imagined! The denture is secured by implants, which is quite a process and takes a long time, waiting for each step to heal. But it was well worth the wait. It's not only beautiful, but feels wonderful. I got along with a traditional denture during the wait, and there is no comparison. I'm delighted with the finished product, and so happy I made the decision to do this!

I absolutely love Dr. Williams and his staff! You are always greeted with a smile and treated like a person instead of a patient. They are all very friendly, understanding, helpful, and professional, not to mention provide outstanding care and quality work. I used to dread going to the dentist and I can honestly say I now find it a pleasant experience! I would encourage anyone to consider Central Kansas Dentistry as their choice for dental care!

Dr. Williams and his staff are truly amazing. I was so nervous about getting a crown and they made the process painless and comfortable. And everyone is so welcoming! Dr. Williams takes pride in his work and it shows! I drive over an hour to see them, but I don't mind at all. I highly recommend Central Kansas Dentistry!

The team was so friendly and nice and caring from the initial phone call to the end of my visit. Going over my treatment desires with Dr. Williams was easy and informative. They were interested in what I wanted to achieve for my end result. I left my appointment very satisfied. It was very pleasant

I was very impressed with my experience at Central Kansas Dentistry in Ellsworth, KS. Dr. Williams and staff were very professional. They were patience, gentle, and friendly. I am not a big fan of going to the dentist, but feel very confident in having an extensive amount of dental work done in their office. They discussed the work that I needed to have done with me. I was offered many choices. There was no pressure to do more than I wanted to have done. I felt the fees were fair. I am looking forward to getting my dental work completed by Dr. Williams. It was well worth the trip from Salina!
